

Cause and Effect Project

How to Produce a Cause and Effect Project

Cause and Effect Project

- First, pick a topic that is interesting to you
- Next, we will spend some time on the computers doing research about our topics
- Then, we start working on our PowerPoint project.

Cause and Effect Project

- The layout / design could be important
- For some topics, each cause may have its own effect – you could use a split screen format
- For some topics, 2 or 3 causes may have a single effect – a layout such as this one may work

Split Screen

- Stuff

- Stuff

Cause and Effect Project

- For other topics, you may need a custom layout – not all slides being the same
- Do keep this in mind: your layout / design could (and probably should) enhance not only your topic but also your presentation ...
